

Greenlife Energy Solutions

making renewable energy work for you

Solar Water Heating Systems

- Tough Storage Tank (Thickness from 0.8 - 2 mm)
- Outer Clading GI Powder Coated
- MS Powder Coated Stands
- Electrical Backup with Thermostat
- 100 LPD - 3 Persons, 200 LPD - 5-6 Persons
- 5 Years Warranty as per MNRE
- ETC Tubes - Three Layer Copper Coated Tube for Fast Heating
- BIS Approved Collector
- Pressurised Heat exchanger Systems, Custom Designed Models are also available

Solar Water Heating Solutions

- SS 304 Steel Tank
- 60° - 80° C Temperature
- Alumunium Cladding with Rock wool Insulation
- Greater absorbtion area with easy tracking of sun due to circular shape of ETC Tube
- Zero Maintenance
- Custom Design Solution (Optimum Pipe Line Design)
- Both Pressurised & Non-pressurised Models Available
- System layout & design as per design Guidelines of MNRE

Solar PV | Solar Thermal | System Integration | Consultancy

Solar Water Pumping Solutions

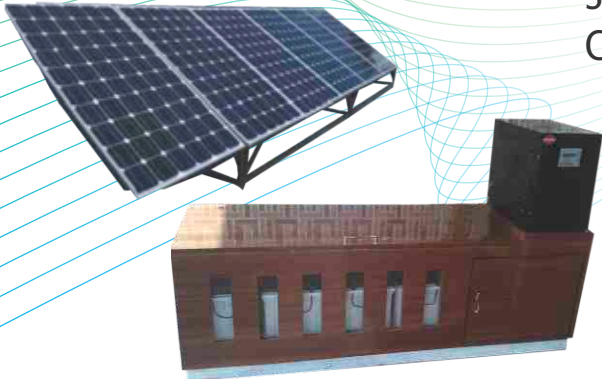

- From 25,000 LPD - 95,000 LPD for 2-4 Acers
- From a Depth of 200 ft - 300 ft (Static and Dynamic Heads)

- 1 HP - 3 Phase
- 3 HP - 3 Phase
- 5 HP - 3 Phase

Existing A/C Pump Can be Run

Solar PV Off-grid System

Solutions from 1 KW & above
Custom designed based on load

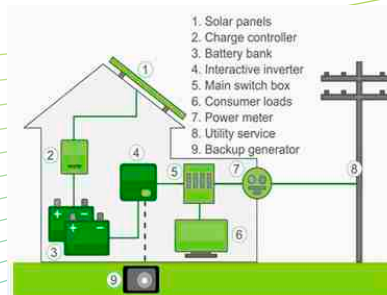

- 1 KW Solar PV Modules
- 1 Solar PCU
- Tubular LMLA / VRLA Battery Bank

Load : 8 Lights, 8 Fans, 1 TV,
1 PC + Open area lighting

Solar PV On-grid System

- Net Metering Scheme of Govt. of AP.
- 1-3 KW Rating
- Feeds into grid
- Generates 5 units / KW
- 50% Subsidy available
